- Stop & Go alert
- Reverse running detection
- Red light violation detection

DMS

- Distraction (Inattentive)
- Sleeping (Fatigue)
- Driver View Obstructed (face not found)
- Phone usage

Driving Monitoring (DVR)

Driving Monitoring (DVR)

E-Mirror Type Dashcam with Separate Front & Rear Cams

MiVue™ R925WD **STARVIS 2**

- Dual 4K STARVIS 2™ sensors for superior night vision
- Top-exit cable design for a cleaner, upright installation
- High-brightness 2000-nits panel for daytime clarity
- Fully laminated 11.26" mirror to eliminate reflections
- Adjustable rear camera zoom for realistic distance viewing
- SuperMP4 – No corrupted file
- Direct Google Maps coordinates for easy location input
- Customizable split-screen for precise surround viewing

MiVue™ R928W4 **STARVIS 2**

- 360° full coverage
- High-reflective coating
- Separated type camera design
- GPS safety alerts
- Built-in WiFi OTA update
- Adjustable rear-view zoom
- One-touch reverse assist
- Smart parking modes

MiVue™ 972WD STARVIS 2

- Dual 4K Ultra HD
- Image sensor with technology of STARVIS 2™
- GPS safety alerts
- Built-in WiFi OTA update
- H.265 compression
- Emergency event lock
- SuperMP4 – No corrupted file
- HDR exposure optimization

HawkRidge STARVIS 2

- Dual (Front+Rear) STARVIS 2™ sensors for superior night vision
- All-around four-cameras complete protection
- Infrared interior camera
- SuperMP4 – No corrupted file
- On-demand Parking Mode
- Built-in NFC to assist WiFi connectivity
- Built-in WiFi 5.8 GHz OTA update
- GPS safety alert

MiVue™ M820 Pro STARVIS 2

- Dual 2K HDR sync recording
- Image sensor with technology of STARVIS 2™
- 1080P 60fps HDR recording
- Speedcam alerts
- Built-in Parking Mode
- HDR exposure optimization
- Pentaband GNSS system
- Time-Lapse recording

MiVue™ M801 STARVIS 2

- Image sensor with technology of STARVIS 2™
- Full HD 1080P 30fps
- Enhanced day/night HDR Imaging
- 2" compact display unit
- Dual power supply (12V / USB-C)
- Manual emergency lock
- SuperMP4 – No corrupted file
- WiFi OTA update

MiVue™ M800 **STARVIS 2**

- Image sensor with technology of STARVIS 2™
- Full HD 1080P@30fps
- Enhanced day/night HDR Imaging
- SuperMP4 – No corrupted file
- Dual power supply (12V / USB-C)
- Manual emergency lock
- Supports 256GB memory card
- WiFi OTA update

MiVue™ MP35

- Dual cams 2K 1440P synchronized recording
- Buckle and Go
- Auto power off if inactive for 3 minutes; move to resume
- Auto / manual triggered event recording
- IP67 waterproof design
- 3200mAh battery up to 10hrs continuous recording
- WiFi OTA update
- SuperMP4 - No corrupted file
- Built-in GPS
- Route Track History
- GPS speedcam alerts

MiVue™ MK50 **STARVIS 2**

- 5.5" IPS touch screen display
- 1,000 nits display screen minimizes reflection interference
- Compatible with Apple Carplay/Android Auto
- Dual cam image sensor with technology of STARVIS 2™ developed by Sony
- Supports Electric Image Stabilization (EIS)
- 60fps high speed recording & HDR
- Auto/Manual Brightness Adjust
- Built-in WIFI/ GPS/ Bluetooth
- Support passive parking mode
- IP67 waterproof design
- Compatible with Ram mount
- Supports tire pressure sensor (optional)

MioSERV S270 | Self-Service Kiosk

Enterprise-ready solution

- Large 27" full HD multi-touch screen in an optimized footprint
- Powered by reliable and proven Qualcomm/Intel platforms
- Choose between Android or Windows OS

Easy installation & maintenance

- Flexible installation: countertop, wall mount & floor stand
- Clean and convenient cable management
- Remote control and update management through MiDM, our in-house MDM solution

Scalable and modular peripherals

- QR code/Barcode scanner, MSR, built-in receipt printer, light indicator for guiding
- Brackets for NFC reader, EFT payment terminals
- Optional camera for user identity

Elevate your customer experience

- Stylish and compact size to perfectly fit in any types of commercial space
- Serve as digital signage for your business

POSBOX | Fanless Box Computer

- Designed for various scenarios
- Easy integration into existing spaces
- Various Mounting options: desktop and wall mount
- Expandable ports for various business-stand configuration
- Intel and ARM platforms available

Varda | 10" Business Terminal

- 10.1" 1280x800 IPS (600 nits)
- Android 13
- IP54 & 1m bare drop resistant
- Dual-band WiFi connectivity (2.4GHz/5GHz) / Bluetooth
- 8M AF Front Camera
- Ideal for in-vehicle infotainment system, advertising

Swift | All-in-one POS system

- Built for demanding commercial environments.
- Dust and splash resistance for stable performance.
- Seamless four-sided peripheral integration.
- Optimized for customer-facing engagement.
- Specialized anti-glare coating for high visibility.
- Streamlined cable management for quick maintenance
